RMSCA Launches the RMSCA Job Board, New Member-Only Benefit
FOR IMMEDIATE RELEAST
November 9, 2026

DENVER, CO – The Rocky Mountain Steel Construction Association (RMSCA) Workforce Development Committee today announced the launch of the RMSCA Job Board, a new member-only benefit built to connect Colorado's steel industry with the people who will build its future.

The RMSCA Job Board is dedicated to steel. It gives job seekers a focused place to find employment opportunities across the Colorado steel industry, and it gives RMSCA Members a direct line to candidates who want to work in steel.

How It Works

- Members post. Only RMSCA Members can post job listings, so every opportunity comes from a trusted industry partner.
- Everyone can search. All visitors seeking employment in the steel industry can view the job postings. No membership is required to browse.
- Members stay in control. Each posting runs for 30 days and can be edited, extended, or taken down early at any time by the RMSCA Member who posted it.

Find the Right Person for Your Team

"Hiring in steel takes people who understand the industry," said an RMSCA spokesperson. "The RMSCA Job Board puts member openings in front of candidates who are looking for steel careers, and it shows job seekers where Colorado's steel employers are hiring."

RMSCA Members are invited to log in and post their open positions today. Job seekers are welcome to visit the RMSCA Job Board to explore current opportunities across Colorado.

LOGIN PROCEDURES:

https://rmsca.org/manage-account/

- **The 'MY ACCOUNT' sign in page** will ask for an email. Use the email listed in the Membership Directory: **https://rmsca.org/member-directory/**

Once logged in, revise your profile listing and navigate to the Job Board tab to post a job.

- To log in enter your password or click the box to 'Request Password'

The password request will be sent to the email listed in your company profile.
